The Fluid Intelligence is a Living Consciousness that is the Source of Living Knowledge. You cannot lie, deceive, manipulate, trick or make mockery of the Fluid Intelligence. It knows the Truth of who you are and what you are.

1. The Sacred System of Unlimited Pathways is the Pathway One finds at the bottom of the Release State of Existence and Ascend it towards Manifesting Spirit to Reality.
2. There are Three States of Existence which we can Emerge into. (Control, Abandon, and Release)
3. The Unlimited Pathways is to master the way of Releasing Oneself to causing an emerging into one of three existence. (Control State, Release State or Abandon State)

- 
1. Release State
  2. Growth
  3. Refinement
  4. Recycling
  5. Unlimited Pathways

## Afrikan Spirituality is the Science of Communication.

# The Secret of Fluid Intelligence. (Cerebral spinal Fluid)

The Sacred System of the Unlimited Pathways is the Formular and Equation for Manifesting Reality causing and effecting the Cerebral Spinal Fluid, the Brain, the Blood, the Bone and the Skin to effect change and transformation.

1. Change does Exist
2. Change is Needed

3. Change will come with or without your consent.

1. Transformation is a State that contains the Previous and the Current State, it is the Potentiality of Two.
2. Transformation requires total the mind to flow (Mindflow) willingness, submission and then total willpower, ability to read, reflect, refine, build rapport and reciprocate and then Revolution.
3. Transformation is an state where something must be fully completed for the effects to occur to take place or be seen.

In the Sacred System Teachings of Organic Afrikan Paradigm. The Fluid Darkness doesn't do things for us. We Afrikans do things and the Fluid Darkness exposes what we do, to cause and effects on our behalf.

---

In other Religions or spiritual System, the standard use is a God. A being who answers prayers. Those religions or spiritual systems use the power of prayer. In the Sacred System of the Unlimited Pathways in Organic Afrikan Paradigm. (A Creator is used instead of a God.) In the Sacred System of the Unlimited Pathways the Afrikan does not use the Power of Prayer. The Afrikan uses the Power of Formulas and Equations, of Time, Energy, Mass, Weight, Space, Pattern.

---

The Sacred System of the Unlimited Pathways uses.

1. **Formula**-is a fixed methods or fundamental steps or actions that can be taken to reach a vital truth or acquire a specific results.
  2. **Equation**- the process of measuring, using the symbols to measure, micro or macro, the amount of time and energy in each step of the formula to guaranteed the results.
  3. Micro or Macro+Introspection+Time+Energy+Patterns= Resolve=Formula and Equation of Life.
- 

Creation of the Question? What, How, When, Where, Who?

Solving the Question: Mindflow (Read, Reflect, Refine, Rapport, Reciprocity and Revolution.

Anything that must be achieved by the Afrikan. The Afrikan must physically (start it, do it themselves, complete it and ask the Creator to pass Judgment of their work.)

If the Creator or the Universe passes a good judgment on your work, the work will be manifested. If the Creator or Universe passes a judgment that your work is incomplete, then you must keep making improvements until the Universe is satisfied.

- Once the Universe is satisfied with your work, you will get results as rewards for the improvements you showed willingness to make and the willpower you showed when it came to practice, patience, persistence, perception and power.
- This is how Organic Afrikan Paradigm teaches all Afrikans it's sacred system the Unlimited Pathways.
- The Fluid Darkness is the infinite, the infinitesimal, the finite and everything beyond the Afrikan comprehension (That which exists beyond, boundlessness. The Afrikan is observing from the Finite Realms and the actions the Afrikan is performing are within the finite realms. Thus, it is wise for the Afrikan to cause the boundlessness to notice them though what the work they have completed and perfected.
- In Organic Afrikan Paradigm teachings of the Unlimited Pathways. What exists is Time, not magic. Time consist of (Practice, Patience, Persistence, Perception and Power) Power is what we are seeking, (Power of Willingness and Power of Willpower) This is the power all creations is seeking. In order to acquire, obtain to cause and effect this power to emerge into the existence of the Release State. (Practice, Patience, Persistence, Perception and Power).
- The Afrikan cannot acquire power though any other means except what is prescribed and established for the Unlimited Pathways and the Release State of Existence.
- The only way other then acquiring power through the release state is the Dysfunctionality State of (The Control State of Existence, Oppression, or Abandon State of Existence to become a Destroyer)

To Achieve Power according to the Universe, the Functionality, the Well-Being State. The Release State to the Unlimited Pathways is the Way.

The Universe doesn't give or grant our desires just because we make wishes or longings or feel entitled to it. We do not pray to manifest our desires from Spirit to Reality. We use the Formula and Equation of Time. (Practice, Patience, Persistence, Perception and Power).

---

1) The Universe has already done what it was supposed to do for you, it did those things billions and millions of years ago, that work is done. You already have those things within you and your only duty is to cause and effect them to open, and emerge into through the Release State of Existence.

2) Now it is your role and responsibility to make this which is embedded inside you open and emerge and ascend to the Release State of Existence and the Unlimited Pathways. In order to something, a desire, a goal, a dream, an end, the Afrikans does the work and the Fluid Darkness expose the cause and effects into the Environment upon our completion and satisfaction of (release, grow, refinement, recycling and unlimited pathways)

3) Example. Think of someone who makes introduction between you and your pathways. The Introduction is the opportunity the Creator set for us. Our own ability to fully use the opportunity depends upon us.

4) When the work is incomplete or unsatisfactory then the work will not be approved by the Universe.

Begin, Develop, Cultivate, complete and then set before the Universe for judgment. If your work is incomplete, perform the submission to change and transformation, show willingness to make improvement until the Fluid Darkness is satisfied. The Ka and the Ba and all the Inner Realms of the Afrikan operates by these laws. Organic Afrikan Paradigm teaches this law to the Afrikans to cause the Afrikans to open, emerge and ascend into existence.

---

The Universe gives us fragments of knowledge to instruct us to perfect or refine our incompleted work. Our openness to take the fragments of knowledge to help elevate ourselves and succeed fall upon ourselves. Th size of the fragment should not be underestimated. What One should do to is show willingness to walk the Release State of Existence first and foremost. (Release; do not be stuck. Grow; open the eye to truth. Refine; Cultivate mastery and excellence. Recycle; allow circulation, change and transformation. Unlimited Pathways (Open, Emerge and Ascend)

---

The Formula and Equation of the Unlimited Pathways is not praying. (It is doing.) If praying was the pathway to success the whole world would have access to wealth and success and well-being,) But the world despite all the prayers is lacking the formula and equation to create Functionality of reality.

The reason the world is in disharmony and suffering and cruelty and dysfunctionality is not because of the absence of prayers. Rather it is the lack of completion of our works, the lack of excellence in our work according to the standard of the Universe.

The Universe standard is Cultivated Mastery and Excellence, Completion and Prescribe and Established for Well-Being and Success.

1) Whatever work we do when our work is completed with cultivated mastery and excellence, the Universe is satisfied and thus the work will manifest. Whatever you were meant to be will be when the Universe is satisfied with your completed work.

Changes and progress and improvements, cultivated mastery and excellence and thoughtfulness, completion of the work and satisfaction of the Universe through the works.

2) Things will not change or transform until (Time) Practice, Patience, Persistence, Perception and Power.

3) Present a Complete Work to the Fluid Darkness and then ask for Judgment to Open the Pathway to make Introduction.

4) You are response for the Causality and the Effects are how well you've performed the causality.

5) This is the Unlimited Pathways through the Release State of Existence.

6) The Universe communicate with us through Questions. When the Universe gives us a question to solve and we complete the question and solve it within cultivated mastery and excellence and thoughtfulness.

7) When the Universe gives you a question, take it as a sign of approval, with this question you can make progress, change or transformation depending of your work.

8) Depending on Your Causality and Effect. Using the Causality of Oneself and the Effects of Cultivated Mastery, Thoughtfulness and Excellence.

9) Using a Truth, Using Truth, Using Measure, and Power to achieve Expediency.

Learning the Way of Time.

*Time is Composed of States of Actions.*

*Time is the Concept of applying (Practice, Patience, Persistence, Perception and Power.)*

---

*1. Practice (Give Time to cause (Opening of the Eye of Truth Within)*

*2. Patience (Give Time to, accept reality, accept stillness, allow stillness to take place, allow reality to be real, allow your ears to hear the Song of Existence.)*

*3. Persistence (Give Time to synchronize and mobilize with the Rhythm of the Release State of Existence).*

*4. Perception (Give time to Trust and Doubt, Questions and explanations Darkness and light, give time to life and death, give time to the micro and macro)*

*5. Power (Give Time to fall and then rise, stretch and resist, time to be, slip through touch, to be harden to stone, steel or gold, and time to be soften to snow, pollen, dust or to be smoothed or to slips through touch)*

This teaching is at the higher dimensions of Organic Afrikan Paradigm Depth of Perception. I have not mastered this dimensions yet due to it great vast depths. I'm still developing this dimension of the Fluid Intelligence. This sacred system of the Unlimited Pathways will be Perfected though Time as the Concept for Applying Practice, Patience, Persistence, Perception and Power.

- Whatever you want to manifest; Wealth, Power, Health, Friendship, Duty, Love. All the different types of ideas and dreams, or goals that one can seek to manifest.
- What ever the goal is that one seek to bring into life, reality. It can be manifested though the Release State of Existence of the Organic Afrikan Paradigm.
- One of the Three States of Existence. (Control which is the Pathway to Fear, Doubt, Stagnation and Decay.) (Abandon Which is the pathway to Neglect, Forsaken, Ignorance and Self-Destruction)

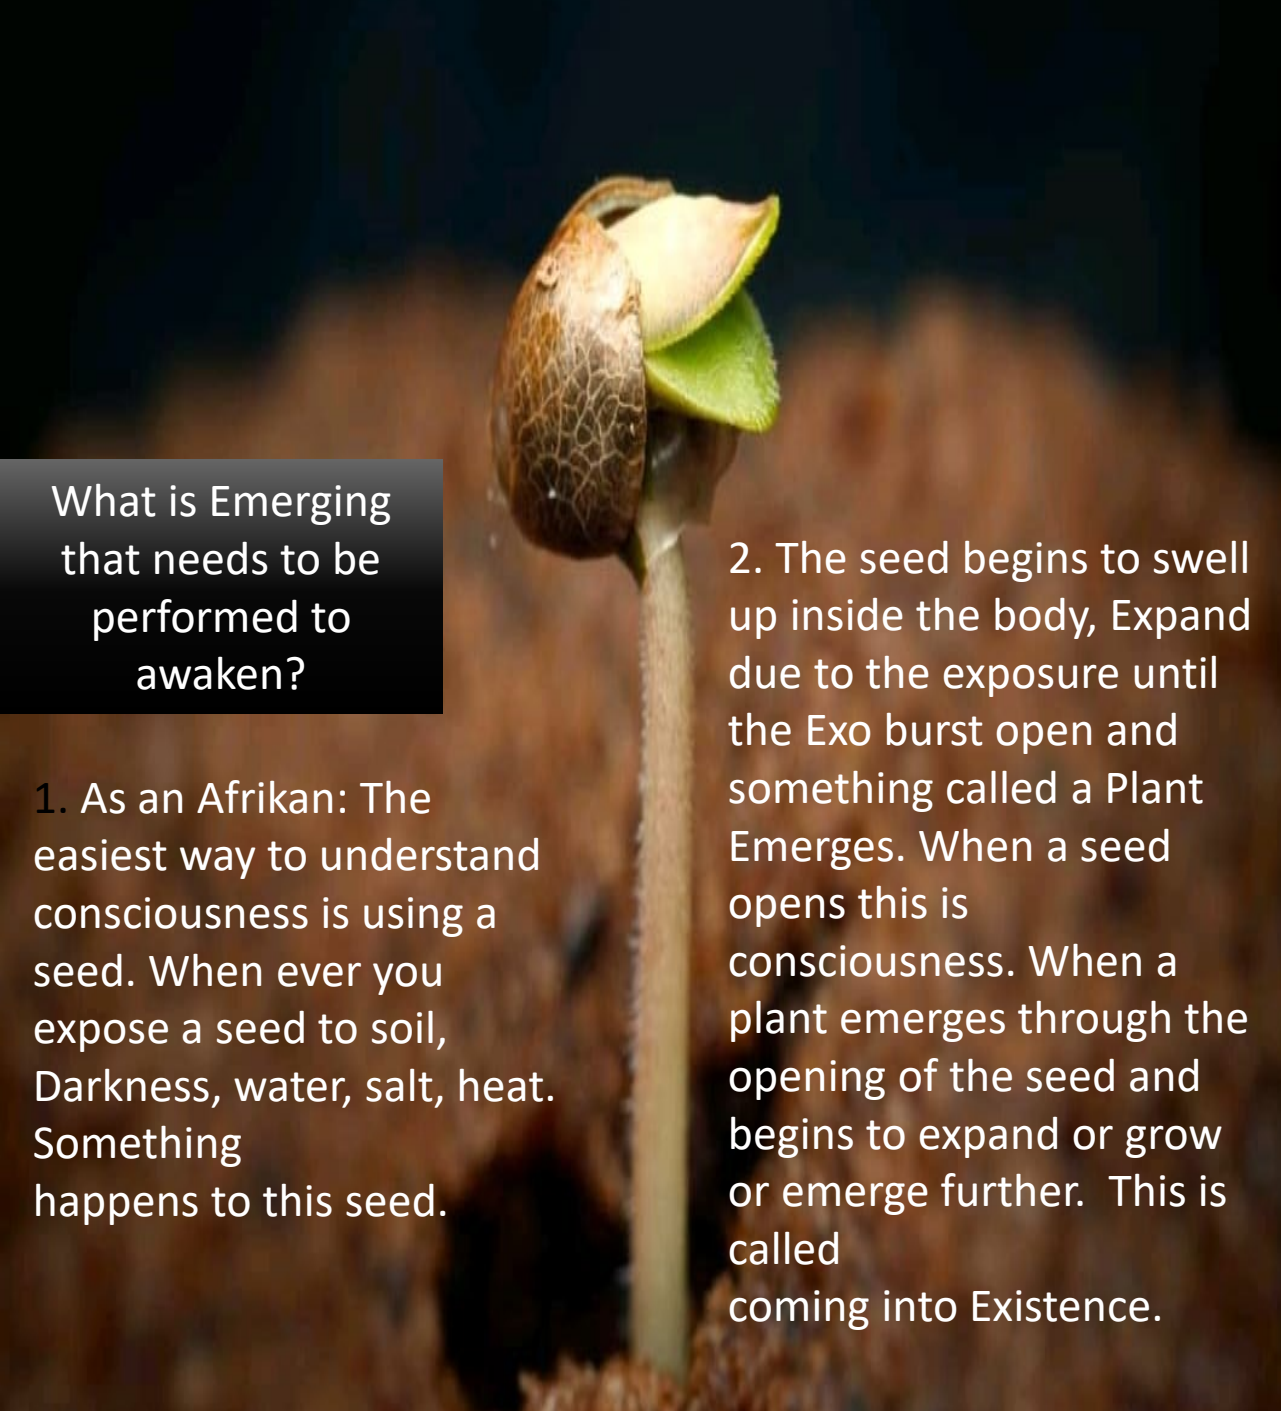

1. Divide your Goals, Dreams or Desires into two things (Duality) this duality is called
  2. The Causality and Effect.
  3. What are the effects or impact of this goal in or on your life, in this Universe?
  4. What are the effects or impact when you introduce this goal into the environment, your family, community, society and collective?
- What will be the effects of your goal when you (“introduce”) it into the environment, the Self, the family, the community, the society, the collective?
  - Designing the effects (“*If I do this*”) it will cause this kind of effect in the environment?
  - List all your effects. When you have all your effects listened, what is going to happen in the environment because you did this.
  - This means you have your (“effects.”) Now you need a Cause.

The Release State of Existence (Formula and Equation)

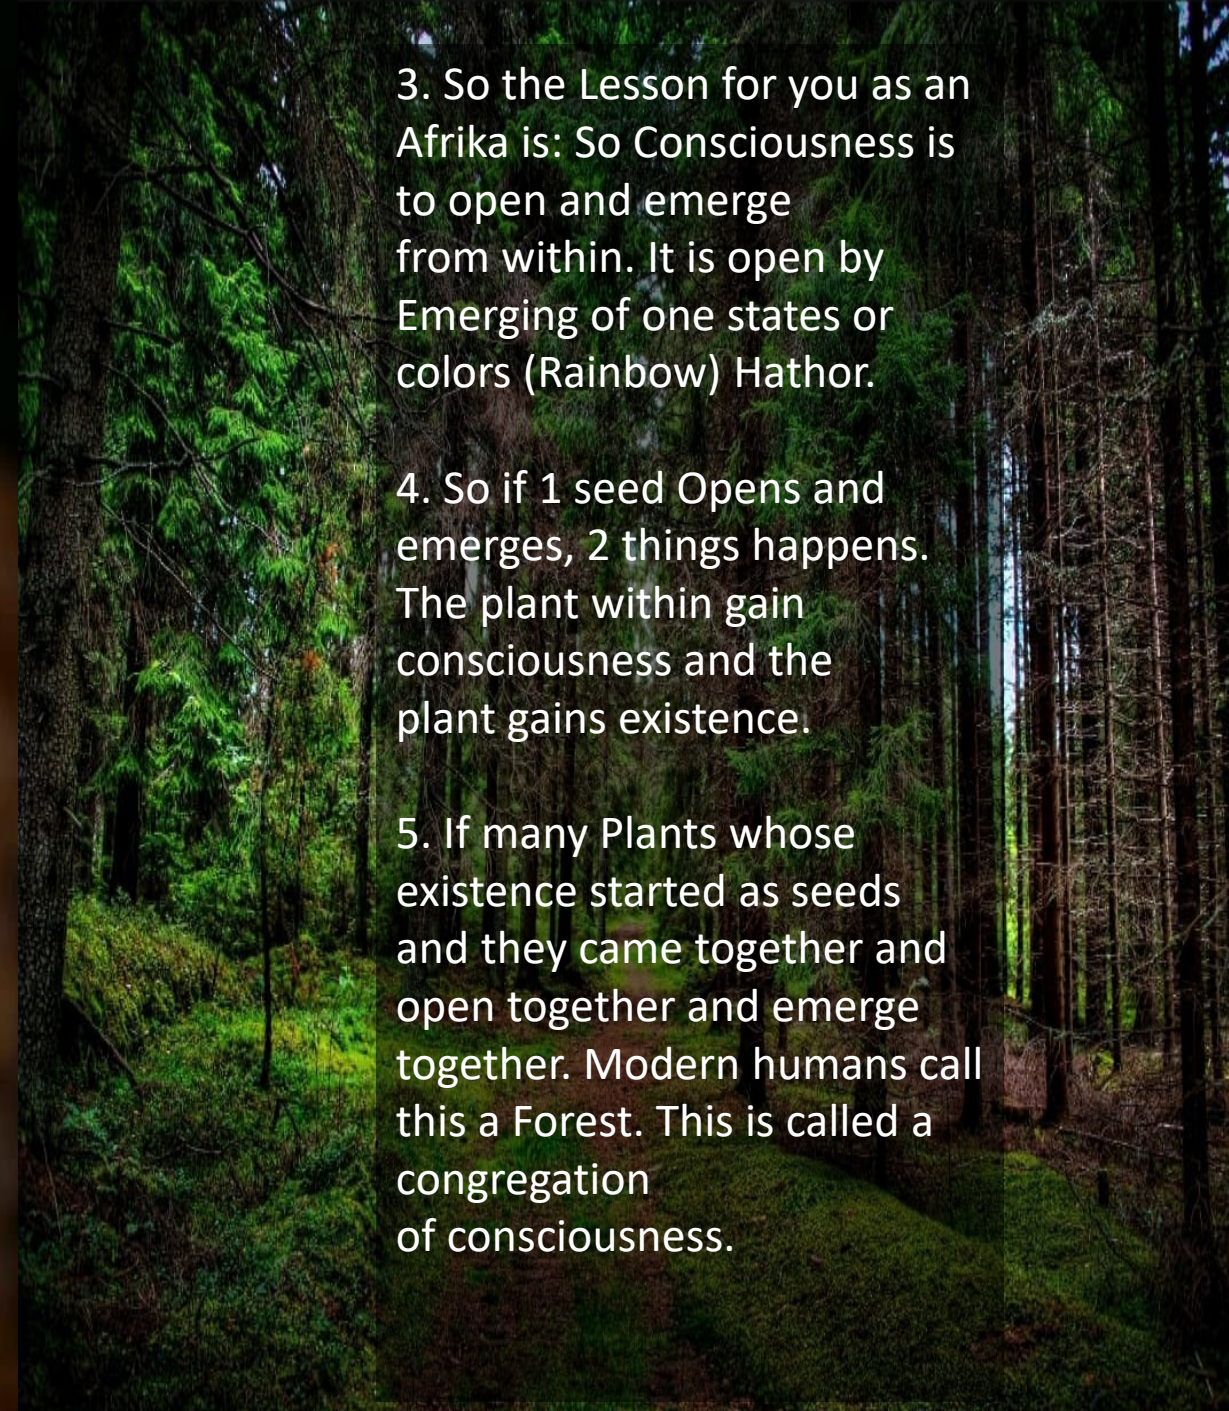

1. What are your Cause? That which is going to Motivate you to ("*Introduce and if I do this*") to take that action.
  2. When you already know the effects of what you will do and the effects it will have on the environment. ("*if I do this, I will get this impact, this result.*")
  3. When you already know the effects of (example of being a lawyer, or an engineer, or chemist or artist) now you need the Cause, the cause is to convince Oneself to take the action.
  4. You have to convince your mind, spirit or emotions, soul, body and manifesting potentiality to unify, to come together for your sake to manifest the effects which you desire to see in the environment.
- You have to create a (hierarchy of reasons, at least Five Reasons call your Five Truths) this hierarchy of reasons will reinforce each other) When this is complete, you have a (Why?) a why is a reason for something to (Be; or occur, take place or exists) When this cause is reinforced at five layers. (We call this list of causes and effects, a Five Truth.)
  - Be and Cause; the reason my dreams, desires or goals has to occur or take place in reality.
  - I'm going to do this, I'm doing this right here and now, (the actions) you must take to cause and effect, a change or transformation in the (Environment) This is manifesting potentiality.
  - The Cause is what people struggle at, people can see the effects, but the cause requires (actions form them, motivation and then movements). Afrikans avoid the cause, the action and they dream or wish for the effects.
  - Cause requires you to get up and take a movement, to cause a migration of consciousness, get up and do something. In order for an Afrikan to be able to face something challenging, that Afrikan must be able to motivate themselves. In order to Motivate Oneself, (Inertia, Awakening, Hunger, Motivation, Movement, Centralization and Ascension are all the stages that Afrikan must go through.)
  - Awakening is the Opening, and then One must also follow through with Emerging from within.

What is Emerging that needs to be performed to awaken?

1. As an Afrikan: The easiest way to understand consciousness is using a seed. When ever you expose a seed to soil, Darkness, water, salt, heat. Something happens to this seed.

2. The seed begins to swell up inside the body, Expand due to the exposure until the Exo burst open and something called a Plant Emerges. When a seed opens this is consciousness. When a plant emerges through the opening of the seed and begins to expand or grow or emerge further. This is called coming into Existence.

3. So the Lesson for you as an Afrika is: So Consciousness is to open and emerge from within. It is open by Emerging of one states or colors (Rainbow) Hathor.

4. So if 1 seed Opens and emerges, 2 things happens. The plant within gain consciousness and the plant gains existence.

5. If many Plants whose existence started as seeds and they came together and open together and emerge together. Modern humans call this a Forest. This is called a congregation of consciousness.

1. The Unity or Center is a Foundation from which one emerges to achieve a goal, desire or dream.
2. From this Foundation is where one emerges, and this action of emerging and then rising and then soaring is called Ascension.
3. All Afrikans begin life in Inertia, a state of ambiguity. To cause a change and to effect a change from within Oneself is the first step to reproducing that same change and transformation into the environment.
4. Cause or Be (to occur or take place requires) Action.

- In order to achieve our goals, dreams, desire, to gain (foresight and forethought) that allows us to use (cause and effects) We must master the Fluid Intelligence.
- Connect to the Fluid Intelligence within one self, cultivating, positive energy, using creation energy.
- \_\_\_\_\_
- Power is Stages, Power is a Process. It is not achieved on a desire alone, it is age though stages, beginning, not the middle or end. Teach yourself to enjoy practice, enjoy patience, persistence, first before anything else.
- We Afrikans typically want to go from zero to sixty instantaneously. We want power without knowledge and acceptance, allowing of powerlessness. The aim is not to gain power simply to exert power. The aim is to know how, when, where, what and especially why to or not to exert power.
- First be gaining willingness, we gain the power to learn. It is from willingness we learn to trust, and gain the seeds to plant confidence within ourselves. (Willingness is an act of submission of one's Ego Wall to allow One intelligence to Emerge) One submits to learn, gain knowledge.
- Willpower is a weight to withstand or to exert a weight or force called power. However, if we do not have a why, what, when, where of power. We abuse power.

Accept Practice, Accept patience, Accept Persistence.

Allow Practice, allow Patience, Allow Persistence.

Enjoy Practice, enjoy Patience, Enjoy Persistence.

Be Happy in Practice, Be Happy in Patience, Be happy in Persistence.

- Mistakes will Occur, mistakes will take place, mistakes exists.
- Accept Time, Allow Time, Enjoy the Company of Time, Be happy in the Prescence of time.
